

A-Line Skirt in a Day

Make yourself an A-line skirt with a back zip, faced waist and with or without pockets.

You'll need to bring

- ✂ Fabric. Suitable fabrics are corduroy, medium weight denim, wool, drill or cotton.
How much?
115cm wide fabric (one or two-way): 140cm (ie twice the length)
150cm wide fabric (one-way): 140cm (ie twice the length)
150cm wide fabric (two-way): 1m
The skirt is 60cm long finished; bring extra fabric for a longer skirt.
- ✂ Zip. Either a 20cm regular (dress) zip or a 25cm invisible zip. Remember to bring the correct foot for your machine.
- ✂ Thread to match.
- ✂ Interfacing, 25cm, suitable for the weight of your fabric.
- ✂ 6mm cotton tape for the waist (it comes in black or white; Clare Fashion and Fabrics sells it).
- ✂ Sewing machine and sewing kit.

You'll also need

- ✂ Pattern paper (eg a roll of greaseproof paper) for your pattern.
- ✂ Pen and paper if you want to take notes.
